

Informal Working Draft and Request for Informal Comments on the Texas Statistical Plan for Residential Risks

Posting date: August 28, 2020

Comments due: September 17, 2020

The Texas Department of Insurance (TDI) has prepared an informal working draft of updates and revisions to the Texas Statistical Plan for Residential Risks (Plan). The Plan applies to all reports required to be filed with TDI for various coverages under homeowners' policies and policies providing fire, extended coverage, and other allied lines on residential dwellings, buildings, and contents.

This informal proposal builds on our previous informal proposal from May 2018. In addition to the proposed changes from the May 2018 draft, this informal proposal includes new changes developed after the May 2018 informal draft was posted.

TDI invites your input. This is an informal posting intended to gather comments from stakeholders and the general public and is not a formal publication for rulemaking.

The comment period for this informal working draft will close at 5:00 p.m., central time, on September 17, 2020. Submit comments to the Data Services Team in the Property and Casualty Actuarial Office at DataCall@tdi.texas.gov, or call 512-676-6690 for more information about this informal working draft.
